

**CAMCO 51455 AWNING SHADE KIT;
54" X 180"; BLACK****~~\$92.63~~ \$56.99****SKU: CMC51455****FEATURES**

Camco's RV Awning Shade Kit provides additional shade and helps lower the temperature under your RV awning. This helps block most UV rays while protecting you and your family from excess sun exposure. The mesh fabric allows air to pass through, giving you an enjoyable breeze. It also provides extra privacy without obstructing your view. When not in use, the awning shade can retract like a curtain while still installed into the awning channel. The shade fits most standard RV awnings and measures 54-inches x 180-inches. It is made of vinyl-coated, woven polyester mesh fabric with UV and flame-retardant protection. The shades feature reinforced corners with rust-resistant grommets. Easy to install—simply hang the shade and secure the bungee cords to the ground, using the tent stakes (included).

SPECIFICATIONS

Weight	6 lbs
Dimensions	12 × 16 × 6 in
