

## WINEGARD RV-WING WINGMAN SENSOR DTV UPGRADE

~~\$53.18~~ \$39.00

---

**SKU:** WNGRV-WING

### FEATURES

Increase the UHF performance of your Sensor antenna  
Easily attaches to your existing Sensor antenna head and installs in minutes  
Watch what you want without the expensive monthly cable bill

- **Antenna Directivity:** Directional
- **Reception Types:** UHF
- **UHF (Ultra High Frequency):** Provides channels 14-51 in the frequency range 470-698 MHz.
- Compatible with any streaming device with over-the-air integration, TV, DVR, or computer with a digital tuner.
- To receive programming, run a channel scan on your TV after setting up the antenna. To keep your channel lineup up to date, it is a good idea to run a channel scan monthly and anytime a channel is lost.
- For use **with Sensor II or III** Antenna heads manufactured after 1990
